

Jonathan Grangien

CV/resume

EXPERIENCE

SEPT 2015 – PRESENT

Media Technology Days

Webmaster

Taking in the planning and work behind the exhibition event Media Technology Days (medieteknikdagarna), which aims to inspire and connect students and companies. As webmaster I am responsible for managing the website medieteknikdagarna and things web related.

SEPT 2015 – PRESENT

LiThehack

Programming Tutor

Taking part in the student-driven organization LiThehack at Linköping University, I help peers with programming related labs, projects or questions.

SEPT 2015 – OCT 2015

Linköping University

Laboratory Assistant

Worked as a tutor for a couple of laboratory exercises, and provided general help during a two month period project, in the course User Interfaces and Communication at Linköping University.

SOME PUBLIC PROJECTS

2015 **Galaxy**

(jonathangrangien.se/myGalaxy)

An interactive WebGL application I worked on in a team of five during a comp. graphics course. A user can create planets and customize it among those created by others.

2015 **Reverbify**

(reverbify.meteor.com)

Hybrid App built as a team project in a sound physics course. The user can upload or record an audio sound clip, and then apply an echo effect from a nice list, and play it back.

2015 **Trappans Personalportal**

Helped building a staff portal for a local pub/club. I worked on the server side PHP and implemented modern features with dynamic JavaScript.

2014 **Mapus**

An Android app built in a user interface oriented course, designed for students to log in to accounts and set out markers on local maps designated where to study together.

SUMMARY

Student of the M.Sc Computer Science in Media Technology engineering programme at Linköping University, Sweden. The courses I have taken at the university – many of which have been group project oriented – have given me good grounds in IT, and I have been able to gain experience through several side engagements. My personal website provides a portfolio.

EDUCATION

2013 – 2018

**MSc comp. sc.
Mediatechnology**

Linköpings Universitet,
Norrköping

2009 – 2012

Natural Science Program

HIGH SCHOOL
NT Gymnasiet, Stockholm
